Minor in Bioentrepreneurship

Description

The Minor Concept - a second year specialization in the MSc Programme in Economics and Business Administration

A minor gives you the opportunity of having a second specialization in your degree. The minor is a bundle of three to four electives that can be chosen separately but if chosen together rewards a minor.

Purpose

The minor in bioentrepreneurship offers the core skills required for commercialization of bio products in the pharmaceutical, bioindustry and biotechnology industry. The objective is not only to build technical skills in business analysis but also train application of these skills to actual business challenges in real-life entrepreneurship projects.

More specifically, the minor will introduce the students to three courses related to bio-entrepreneurship:

- Innovation Challenges in BioBusiness
- Bioentrepreneurship
- Bio Markets

The minor will run in the fall 2024.

Structure

The structure and the ECTS credits of the individual courses are listed below. The course descriptions are available in the online course catalogue.

Course	ECTS
